

Throughout the years I was able to embark on many opportunities that have taught me many things about leadership such as becoming SRC multiple times i was at Tarneit p-9 college. My passion for leading and making a change, is in my opinion, what has lead me to achieving this particular award. whither it be in the classroom or outside of school, I help clear others concerns where I can, raise issues that need to be raised, set a good example for others and strive to learn more each day to help better peoples lives with the knowledge that i have gained.
